            <p>I know what you must be wondering: why should we hire a High School student? You should hire me because I am fluent in HTML and CSS, passionate about my work, and I have good time management skills. I am clearly fluent as this CV is completely written in HTML and CSS. I spent 10+ hours on an entry for Beta Convention, while most just bought it at a store. I can manage my time as I have to balance high school classes, college, and sports.
